

Andrej Skoryk

Senior .NET / Full-Stack & Data Engineer

Location: Dnipro, Ukraine (UA) | Phone: +380994302903 | Email: andrej.skoryk@gmail.com

Teams: andrej.skoryk | LinkedIn: <https://www.linkedin.com/in/duxa321>

Professional Summary

Result-driven Senior Software & Data Engineer with over 14 years of professional experience, including 8+ years specializing in full-stack .NET development and Big Data solutions. Proven track record in architecting serverless cloud environments, building high-throughput ETL pipelines, and optimizing database performance for high-volume data. Expert in combining robust backend ecosystems (.NET Core, microservices, CQRS) with modern frontend frameworks (Angular, Vue.js) and advanced AWS data engineering stacks. Experienced in telematics (GPS tracking), fintech data processing, and scalable SaaS solutions.

Technical Skills

- **Data Engineering & Cloud (AWS / Azure):** AWS Glue, Apache Spark, PySpark, AWS Step Functions, AWS Lambda, Athena, Redshift, Amazon S3, DynamoDB, OpenSearch, Aurora DB (PostgreSQL), EventBridge, SNS, Azure Functions, CosmosDB, Azure Blob Storage, Service Bus.
- **Backend & Architecture:** C# (9.0+), .NET Core, ASP.NET Core Web API, EF Core, LINQ, TPL, microservices, CQRS, RabbitMQ, SignalR, stored procedures, query optimization, bottleneck analysis.
- **Frontend & Web:** TypeScript, JavaScript, Angular (11+), Vue.js (3), NgRx, RxJS, Vuex, HTML5, LESS, Razor, Swagger.
- **DevOps & Tools:** Kubernetes, Git, TFS, xUnit, NUnit.
- **Databases:** PostgreSQL, MSSQL, MySQL, MongoDB, Redis.

Professional Experience

TRINETIX

Senior .NET & Big Data Developer | 03.2022 - Present

Vision360 - Cloud-based Fintech Data Ingestion & Analytics Platform

- Developed and optimized AWS Glue ETL jobs using PySpark to ingest, aggregate, and process multi-source financial data.
- Orchestrated complex serverless workflows using AWS Step Functions, reducing pipeline latency and operational overhead.
- Built AWS Lambda functions to automate serverless file-trigger processing and third-party integrations.
- Optimized Amazon S3 storage through data partitioning, compression, and file-size optimization.

Magnet - High-Load Workplace Reservation

- Architected pipelines for real-time and batch GPS tracking data ingestion.
- Performed database performance tuning and bottleneck analysis to scale throughput under high-volume loads.
- Optimized queries and refactored legacy stored procedures to achieve sub-second response times.

SOLVE

Senior .NET / JS (TS) Engineer | 10.2018 - 03.2022

Edyo - SaaS eLearning Management System

- Designed Kubernetes microservices for file storage (AWS S3), notifications (AWS SES), and auditing.
- Integrated WebRTC for live chat and peer-to-peer data streaming.

PlayHera - Esports Tournament & Gaming Grid Platform

- Engineered double-elimination and round-robin tournament structures for real-time scoring.
- Implemented live SignalR alerts for matching updates and grid movements.
- Built Azure media-processing pipelines to generate thumbnails and multi-resolution media assets.

Webscape - Enterprise ERP Client Applications

- Developed dynamic UI forms using custom XML-over-TCP/IP protocols.
- Optimized Angular/Vue rendering for data-heavy dashboards.
- Integrated SSO across interconnected internal products.

INSPECTRON

.NET / JS Developer | 10.2016 - 10.2018

TennisMaster - Centralized Tournament Orchestration Platform

- Built API synchronization clients to aggregate court scheduling data from multiple external tennis systems.

IIUA

.NET Developer | 04.2016 - 10.2016

- Developed core business logic components and modular API extensions using .NET framework technologies.

CIKLUM

.NET Full-Stack Developer | 10.2012 - 04.2016

Vision - Enterprise Brainstorming & Predictive Marketing Ad Platform

- Built targeting engines matching audience demographics, income, and interests with optimal advertising channels.

Education

Oles Honchar Dnipro National University

Master's Degree in Radiophysics | Graduated: 2010

Languages

- English: Intermediate (B1/B2 - Professional working proficiency)
- Ukrainian: Native
